**Economic Bionics**

The world-reform for human, nature, economy

+

a life without dept

Not money holds the society but the people.

Triple- adding value/creation of

~~money~~ thank-value

owning of each human

**from suckling until to the greis**

A short view about virtue benefits

elaborate from erika diehl

[www.gradido-web.info\\_en](http://www.gradido-web.info_en)

° individuality without selfishness with healthy / natural selfishness self-love,

° sence-center life in the midpoint,

° the fictive ~~cash~~ thank-value flow optimal directed and used + foollproved to understand,

° irrational new territory ... absolutely incredible .

Dankbarkeit (**Gr**atitude), Wertschätzung (**A**ppreciation),

Menschenwürde (**Di**gnity), Geschenk (**Do**nation)

For each person in the world is in each month

a value covered by

3.000 Thanks / Gradido of esteem

3.000 €

3.000 \$

active means,

50 hours / month working for the welfare

for example

engaged in needy humans, animals, plants.

So all activities, they do not need a special education, but contribute immense to the quality of life working of your social surround / periphery.

**With the active vita money** (50 hours /month)

is the livelihood sure.

Rent etc., food und drink, clothes, public swimming pool, cinema, pub etc.

active  
vita money

national  
budget

environment-  
pot

1.000

1.000

1.000

The national budget  
financed the health care  
and welfare,  
roadworks etc.

The environment-pot  
financed the research  
and the implementation  
of projects in consistent  
with the nature.

The Netherlands wrote on their flag, worldwide to be the first  
country, implement Cradle to Cradle at 100 %.

The sense of Cradle to Cradle: Live without  
waste and without environmental pollutant.

In co-operation with <http://www.epea.com/about>

Prof. Braungart <http://braungart.com/en>

Projects are supported and implemented, if they serve  
the welfare

1. to each involved parties,
2. the community: family, commune, country, humanity ... +
3. the whole: nature, environment, earth

active  
vita money

national  
budget

environment-  
pot

### Example monthly salary of the Environmental-Employee

- ° for 50 hours / month working, the active vita money 1.000
- ° working with free of tax  
for 50 % of the salary, gross amount = net amount 500
- ° that you work in a company, as an Environmental-Employee,  
you got from the environment-pot 500

### Another example of a monthly salary

- ° for 50 hours / month working, the active vita money 1.000
- ° working in the waste collection, ~~police~~ keeper of the cosmic order ;-), in the hospital health house, in the retirement home  
or other social arrangements 1.500  
(double til triple pay / 500)

### Example salary in research + science to the environment

Cradle to Cradle

- ° research for a life  
without waste and without environmental pollutant 3.500

## Here some benefits for the free economy / companies

### ° free of tax

- ° the monthly salary of the employee reduced tax, statutory insurance, possible the employee pension
- ° good-humored stress-free employees
- ° Tasks will be completed in a short time + in a high quality
- ° Administration effort is only necessary for the product and for the welfare of the employees
- ° Implementation of environmental projects are financed from the environment-pot.
- ° Ordering to the research of toxic-free liquids / products are financed from the environment-pot

### Benefit for the national budget

- ° always well-heeled with good care of the welfare to the humans , animals and nature

### Benefit for the environment

- ° always environment well-heeled for the science and the companies
- ° the environmental-sins are clean up so far it works, eliminate
- ° in the future only projects/things/objects are implemented, produced and circulated, are according with the nature

## Here some benefits for each human of the world

he do have the active vita money from the birth til the death

- ° learning, what he is interesting in
- ° working in this area , it makes him fun and joy
- ° the hours of work are reduced strong, because
  - we do not need any over production
  - the quality and the length of life of the products rise up  
(no cast off society, no mining of nature)
- ° making savings for the evening of life is possible, but not necessary
- ° prevoius properties still conserve
- ° prevoius financial investmens, certificate of insurance still conserve til the payment,  
be subjected then into the perishability of Gradido:
  - stay the money on the account,  
it becomes less of 50 % perishability per year
  - do you spend the money in to the added-value-zyclus, it be conserved:  
You lend or invest the money in humans / small firm, companies, research projects
- ° the business-value-flow is in all areas in any time cristal-clear + reproducible + foollproved to understand.

*Nothing in the world is so powerful like an idea,  
when the time ist coming.*

- Victor Hugo, french author

[Book Gradido](#) left hand side

[Chapter 4](#) – the 100 most important benefits

No. 81 - plan by stages to implemented parallel

... offical implementation in one or more countries parallel

in the established system ... government decision ... if so referendum ...

No. 82 - just in time doable, if we humans go for this proposal
